The Board considered that the Mumbai Stock Exchange is having national wide trading terminals and the investors have access to trade and deal in Company's shares across the country.

Equity shares of the Company listed on the Ahmedabad Stock Exchange, Ahmedabad are not providing any significant tangible advantage to the shareholders and investors of the Company.

Therefore, the Board at their meeting held on August 13, 2010 has considered to recommend for voluntary delisting of the Company's Equity Shares from the Ahmedabad Stock Exchange, Ahmedabad and continue its listing only with the Stock Exchange Mumbai to avoid unnecessary financial and administrative burden due to multiple compliance of the various clauses of the Listing Agreement from time to time and to provide better services to the investors through the national wide Stock Exchange terminal.

Your directors recommend passing the said resolution as Special Resolution as set out in item No. 10 of the notice, for voluntarily delisting the Shares of the Company from the said Stock Exchange.

None of the directors are concerned or interested in the above said resolution, except as a member of the company.

Item No. 11:

The foreign Institutional Investors (FIIs) have assumed a crucial role in the Indian capital market. It is proposed to facilitate greater FII investment in the Company, which would not only provide depth and liquidity to the Company's shares but will also reflect the Company's commitment to the highest standards of disclosures, transparency, and corporate governance, its operational efficiencies, global competitiveness, and proven management track record, which are the preferred investment qualifications for FIIs.

In terms of the provisions FEMA and Foreign Exchange Management (Transfer of Issue of Security by a Person Resident Outside India) Regulations, 2000, the Foreign Institutional Investors (FIIs) may invest in the equity shares / convertible debentures up to the sectoral cap / statutory limit as applicable to the Indian Companies, subject to the approval of the Board of Directors and approval of Members of the Company by way of a special resolution.

The Board of Directors of the Company at its meeting held on August 13, 2010, inter alia, proposed, subject to the approval of Members by way of a special resolution, to enhance the said FII investment limit to 100 percent of the paid up Equity Capital of the Company.

The resolution set out at Item No. 11 of the accompanying notice will enable the FIIs, who are considered to be prudent investors, to acquire shares of the Company through authorized dealers within the revised ceiling under the schemes of the Reserve Bank of India.

The Board of Directors accordingly recommends the resolution set out at Item No. 11 of the accompanying Notice for the approval of the Members.

None of the Directors of the Company is, in any way, concerned or interested in the said resolution.

Item No. 12:

Pursuant to the provisions of Section 372A of the Companies Act, 1956, a company can not make inter corporate loans, investments, give guarantee, provide security, acquire by way of subscription, purchase or otherwise the securities of any other body corporate in excess of sixty percent of its paid – up share capital and free reserves, or one hundred per cent of its free reserves, which ever is more. As a part of its growth strategy, the company has been continuously looking for inorganic growth opportunities both in the domestic and international markets. Considering the above, the Board of Directors of the Company recommends to increase it up to Rs. 1000 crores (Rupees One Thousand Crores).

The Board recommends the resolution as set out at item no. 12 of the notice for approval by members.

None of the Directors of the Company are interested or concerned in the said resolution.

SCHEDULE 15

SIGNIFICANT ACCOUNTING POLICIES

A) Basis of accounting

The financial statements have been prepared to comply in all material respects with the Accounting Standards notified by Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on an accrual basis except in case of assets for which provision for impairment is made and revaluation is carried out. The accounting policies have been consistently applied by the Company and except for the changes in accounting policy discussed more fully below, are consistent with those used in the previous year.

B) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

C) Revenue Recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Sale of Goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Excise Duty, Sales Tax and VAT deducted from turnover (gross) are the amount that is included in the amount of turnover (gross) and not the entire amount of liability arisen during the year.

Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividends

Revenue is recognised when the shareholders' right to receive payment is established by the balance sheet date. Dividend from subsidiaries is recognised even if same are declared after the balance sheet date but pertains to period on or before the date of balance sheet as per the requirement of schedule VI of the Companies Act, 1956.

D) Accounting for Export Incentive:

Export incentive are recognised on exports on accrual basis, and based on the estimated realizable value of such entitlements.

E) Fixed Assets:

Fixed assets are stated at cost (or revalued amounts, as the case may be), less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of fixed assets which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

F) Depreciation:

Depreciation is provided using the Straight Line Method as per the useful lives of the assets estimated by the management, or at the rates prescribed under schedule XIV of the Companies Act, 1956 whichever is higher. The Company provides pro-rata depreciation for additions / deletions made during the reporting period, except for the asset each costing Rs. 5000 or less, for which depreciation is provided at hundred percent.

G) Impairment of Assets:

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/ external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

H) Leased Assets:

Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly against income. Lease management fees, legal charges and other initial direct costs are capitalised.

If there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Lease hold land is amortised over the Lease period.

I) Foreign Currency Transactions:

(i) Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

(iii) Exchange Differences

Exchange differences arising on a monetary item that, in substance, form part of the company's net investment in a non-integral foreign operation is accumulated in a foreign currency translation reserve in the financial statements until the disposal of the net investment, at which time they are recognised as income or as expenses.

Exchange differences arising on the settlement of monetary items not covered above, or on reporting such monetary items of company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

(iv) Forward Exchange Contracts not intended for trading or speculation purposes

The premium or discount arising at the inception of forward exchange contracts is amortised as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contracts is recognised as income or as expense for the year. None of the forward exchange contracts are taken for trading or speculation purpose.

J) Investments:

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the Investment.

K) Inventories:

Inventories are valued as follows:

Raw materials, Packing material, Work in progress, components, stores and spares

Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on First in First out basis (FIFO).

Finished goods

Lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty. Cost is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

L) Taxes on income:

Tax expense comprises of current, deferred and fringe benefit tax. Current income tax and fringe benefit tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

M) Employee Benefits:

i. Retirement benefits in the form of Provident Fund and Government administered Employees Insurance and Pension Plans are defined contribution schemes and the contributions are charged to the Profit and Loss Account of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective funds.

Gratuity liability is a defined benefit obligations and are provided for on the basis of an actuarial valuation of projected unit credit method made at the end of each financial year. The Company makes annual contributions to the Employee's Group Gratuity-cum-Life Assurance Scheme of the Life Insurance Corporation of India, a funded defined benefit plan for qualifying employees. The Scheme provides for lump-sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service or part thereof in excess of six months. Vesting occurs upon completion of five years of service.

The Company has a scheme for compensated absences for employees, the liability of which is recognized on actual basis instead of accrual basis and charged to Profit and Loss Account.

ARCOIRIS SA 6900 LUGANO

Lugano, 29th March 2010

Report of the statutory on the limited statutory examination to the general meeting of ARCOIRIS SA, Lugano

As statutory auditors, we have examined the financial statements (balance sheet, income statement and notes) of ARCOIRIS SA. for the year ended 31.12.2009.

These financial statements are the responsibility of the board of directors. Our responsibility is to perform a limited statutory examination on these financial statements. We confirm that we meet the licensing and independence requirements as stipulated by Swiss law.

We conducted our examination in accordance with the Swiss Standard on the Limited Statutory Examination. This standard requires that we plan and perform a limited statutory examination to identify material misstatements in the financial statements. A limited statutory examination consists primarily of inquiries of company personnel and analytical procedures as well as detailed tests of company documents as considered necessary in the circumstances. However, the testing of operational processes and the internal control system, as well as inquiries and further testing procedures to detect fraud or other legal violations, are not within the scope of this examination.

Based on our limited statutory examination, nothing has come to our attention that causes us to believe that the financial statements and the proposed appropriation of available earnings do not comply with Swiss law and the company's articles of incorporation.
